## EXPERIENCE

**Information Risk & Security Intern**, MGM Resorts International, Las Vegas, NV June 2018-Sept. 2018

- Assisted with the facilitation of Gaming (MICS), Sarbanes-Oxley (SOX), and Payment Card Industry (PCI) compliance efforts.
- Collaborated with IT and audit teams to ensure compliance with internal controls.
- Generated and provided regular compliance reports and scorecards.
- Participated in the planning, preparation, testing, submission, and tracking of technical and control submissions.
- Attended Black Hat 2018 and numerous vendor lunches
- Conducted threat intelligence and social media analysis at MGM's Security Operations Center for Black Hat and DEFCON 2018.

**IT Specialist**, Mobile Law Center, San Luis Obispo, CA January 2018-April 2018

- Integrated all social media platforms through a unified social media platform, Hootsuite.
- Responsible for improving website SEO and backend administration.
- Migrated current infrastructure into the Google productivity suite (G Suite).

**Student Technician**, Cal Poly – Comp Science Dept., San Luis Obispo, CA October 2016-Present

- Worked up to 20 hours weekly while attending Cal Poly full-time.
- Responsible for operation, maintenance, and storage of over 400 workstations and server equipment to support over 600 end-users.
- Oversaw team of 10 student technicians and prioritized IT tasks according to company demand.
- Documented help desk tickets/resolutions and maintained equipment inventory and surplus lists.
- Assisted faculty and staff in day-to-day workstation and network operations.

**Network Administrator**, Faith Lutheran IT Dept., Las Vegas, NV August 2012-June 2016

- Responsible for managing, troubleshooting, and overseeing the school network.
- Imaged and installed software on school workstations using Ghost and Deploy Studio.
- Installed and configured miscellaneous network hardware (APs, UPSs, switches, etc.).
- Helped faculty and students troubleshoot and resolve tech related issues.
